October 16, 2023

To whom it may concern,

Please accept this letter as a strong endorsement of the Home Energy Rebates energy efficiency program.

As Mayor of the town of Oakdale, I have had the opportunity to see firsthand the positive effect that energy efficiency programs have had on our citizens. That's why I'm eager to support the federally funded Home Energy Rebates program.

The Home Energy Rebates program would dramatically improve energy-efficiency for low- and middle-income households in Oakdale, bringing down living expenses at no additional cost to ratepayers. Furthermore, citizens will have the peace of mind that comes with new equipment: they would no longer worry about their aging air conditioners malfunctioning during the scorching summer months, for example.

In addition to the aforementioned benefits, I anticipate several other advantages arising from the implementation of the Home Energy Rebates program. However, I am concerned that any delay in its implementation could prevent our townspeople from reaping the benefits of this program during a time when they truly need it.

I take great pride in the efforts undertaken in Oakdale to assist households in saving money on their utility bills, and I am eager to seize the opportunity presented by this program to make an even greater impact within our community. Therefore, I implore you to support the implementation of the Home Energy Rebates program as expeditiously as possible.

Thank you for your consideration.

Sincerely,

Gene Paul
Mayor
