To whom it may concern,

Please accept this letter as a strong endorsement of the Home Energy Rebates energy efficiency program from the contractor's perspective.

I am the owner of Elec.Tech, LLC and have been providing energy efficiency services for about 12 years.

The Home Energy Rebates program would have a dramatic, positive impact on my business. The magnitude of these federal funds would allow many more households to utilize my services at no additional cost to ratepayers. In addition, it would allow my company to hire more sales members.

I am concerned that a delayed implementation of the Home Energy Rebates program in Louisiana could prevent my business from scaling rapidly, forcing me to grow in other states that do implement the program quickly.

I am proud to be helping households save money on their utility bills and am eager for the opportunity presented by this program to make a larger impact in my community. I urge you to support the implementation of Home Energy Rebates as quickly as possible.

Thanks for your consideration!

Kind regards,

Michael de la Houssaye

Elec.Tech, LLC-Owner
