LOUISIANA PUBLIC SERVICE COMMISSION
UNDOCKETED WINTER STORM EVENT

Response of: Entergy Louisiana, LLC
to the First Set of Data Requests
of Requesting Party: Louisiana Public Service
Commission

Question No.: LPSC 1-19 Part No.: Addendum:

Question:

What are your suggestions on how to spread the fuel costs through the Fuel Adjustment Clause ("FAC") such that these costs are not incurred on a single bill?

Response:

Pursuant to Special Order No. 19-2021, ELL proposed, in a letter sent to the LPSC Executive Secretary on March 23, 2021, to limit its February 2021 recoverable fuel and purchased power cost at $106.3 million, equal to the amount that was included for recovery in the January 2021 cost month filing. ELL further proposed to defer actual expenses in excess of that limit and amortize over a 5-month period. In that event, customers would see these incremental costs reflected on bills from April 2021 – August 2021. Pursuant to that same Special Order, ELL's request was approved by the Executive Secretary on March 29, 2021.
