Re: Atmos Energy Corporation – Trans Louisiana Rate Division and
LGS Gas Rate Division
Review of 2018 Annual Rate Stabilization Clause Filings

Dear Ms. Trosclair:

Exeter Associates, Inc. (Exeter) is pleased to submit this proposal to assist the Louisiana Public Service Commission (Commission or Staff) with the review of the 2018 Annual Rate Stabilization Clause (RSC) filings for Trans Louisiana Gas Company (Trans La) and Louisiana Gas Service (LGS).

Proposed Services

With regard to the review of the RSC filings, the services that Exeter will provide to Staff will include:

- Reviewing the annual RSC filings of Trans La and LGS;
- Conducting discovery, including preparing written data requests as well as follow-up discovery conferences, as necessary;
- Verifying that the filings are consistent with the provisions of the Commission's order establishing the RSC along with other Commission guidelines regarding properly recoverable costs; and
- Preparing a report presenting Staff's findings and recommendations regarding any adjustments to the Company's claims and identifying the appropriate rate adjustment.

Qualifications

Exeter is well-qualified to provide the assistance that the Commission requires. Exeter has extensive experience addressing utility regulatory matters before the Commission, as well as other state and federal regulatory agencies. Our experience includes extensive work in analyzing the operations, books, and records of utility companies and providing expert testimony on all aspects of utility regulation and ratemaking. The issues addressed in this work have included:

- Appropriate accounting standards and practices for natural gas utilities, public utility accounting, and generally accepted auditing standards;
- Appropriate ratemaking adjustments to utility accounting records;
- Determination and calculation of the appropriate base rates and utility plant;
- Traditional cost of service and cost allocation methodologies supporting revenue requirements;
- Cost allocation methodologies for the allocation of costs between affiliates;
- Cost of capital including cost of debt and the return on equity;
- Just and reasonable costs and prudent investments associated with providing reliable and quality service; and
- Depreciation and taxation.

Exeter is qualified to provide assistance with respect to the RSC filings of Trans La and LGS. We have also assisted with the reviews of similar rate stabilization plans of other gas and electric utilities in Louisiana.

Mr. Jerome D Mierzwa, a principal of Exeter, will have overall responsibility and supervision of this project. Mr. Lafayette Morgan, Jr., a senior level consultant, will be primarily responsible for reviewing the RSC filings and the day-to-day aspects of the project. Mr. Morgan has participated in the review of Entergy Louisiana formula rate plan and has testified before the Commission on behalf of Staff in other proceedings. Attached is Mr. Morgan's professional resume outlining his previous work. In addition to Mr. Mierzwa, other members of Exeter's staff will be available to assist as necessary.

Cost Proposal

Exeter proposes to perform the reviews of the RSC filings for Trans La and LGS for the 2018 test year at a cost, for professional services, not to exceed \$17,000 each, or a total of

\$34,000. Direct expenses, including travel, is budgeted not to exceed \$2,000 for each proceeding. This assumes any required travel will differ for each proceeding. Exeter bills for professional services based upon the actual hours spent up to the budgeted ceiling. Our standard hourly billing rates range from \$80 per hour for research assistants to \$220 for principals. Direct expenses will be billed at cost.

Conflict of Interest

Please note that Exeter has no business relationship with Atmos Energy or any of its affiliates, nor have we ever had such a relationship. Thus, Exeter has no conflict of interest that could impair or restrict our ability to provide assistance and objective advice to Staff. If you have any questions of either a technical or a contractual nature, please do not hesitate to call. We look forward to being of service to the Commission and the ratepayers of Louisiana again.

Very truly yours,

Jerome D. Mierzwa,
Vice President

JDM/arr
Enclosure

LAFAYETTE K. MORGAN, JR.

Mr. Morgan is an independent regulatory consultant focusing in the area of the analysis of the operations of public utilities with particular emphasis on rate regulation. He has reviewed and analyzed utility rate filings, focusing primarily on revenue requirements determination, accounting and regulatory policy and cost recovery mechanisms. This work has included natural gas, water, electric, and telephone utilities.

Education and Qualifications

B.B.A. (Accounting) – North Carolina Central University, 1983

M.B.A. (Finance) – The George Washington University, 1993

C.P.A. – Licensed in the State of North Carolina (Inactive status)

Previous Employment

1993-2010	Senior Regulatory Analyst Exeter Associates, Inc. Columbia, MD
1990-1993	Senior Financial Analyst Potomac Electric Power Company Washington, D.C.
1984-1990	Staff Accountant North Carolina Utilities Commission – Public Staff Raleigh, NC

Professional Experience

As a Staff Accountant with the North Carolina Utilities Commission – Public Staff, Mr. Morgan was responsible for analyzing testimony, exhibits, and other data presented by parties before the Commission. In addition, he performed examinations of the books and records of utilities involved in rate proceedings and summarized the results into testimony and exhibits for presentation before the Commission. Mr. Morgan also participated in several policy proceedings and audits involving regulated utilities.

As a Senior Financial Analyst with Potomac Electric Power Company, Mr. Morgan was a lead analyst and was involved in the preparation of the cost of service, rate base, and ratemaking adjustments supporting the Company's request for revenue increases in its retail jurisdictions.

As a Senior Regulatory Analyst with Exeter Associates, Inc., Mr. Morgan has been involved in the analysis of the operations of public utilities with particular emphasis on rate regulation. He has reviewed and analyzed utility rate filings, focusing primarily on revenue requirements determination, accounting and regulatory policy and cost recovery mechanisms. This work included natural gas, water, electric, and telephone utilities.
