QUALIFICATIONS

This proposal is submitted in response to Request for Proposal (“RFP”) 19-07, Docket R-35142, *In re: Rulemaking Regarding Alternative Methods of Financing and the Approvals Necessary Under the Commission’s March 18, 1994 and November 13, 1996 General Orders*. Patrick Miller LLC (“Patrick Miller” or the “Firm”) respectfully proposes to assist the Commission’s Staff with the referenced docket.

Patrick Miller exceeds the minimum requirements set forth in RFP 19-06 and in the Commission’s General Order issued November 10, 2014. The Firm is a Commission approved law firm and has successfully assisted Staff in electric utility matters. The Firm is currently assisting LPSC Staff in four matters. A listing of matters in which we have appeared before the LPSC is attached as Exhibit “A.”

Representative attorneys of the Firm are admitted to practice before the Supreme Court of Louisiana and have been actively engaged in the practice of law for at least five (5) years. They are admitted to practice before all state and federal courts of the State of Louisiana. They are also admitted to practice before various federal appellate courts, including the Supreme Court of the United States. The Firm and its attorneys have extensive experience in contract review, negotiation,

regulatory compliance and commercial litigation, including proceedings before administrative law judges and federal and state agencies, commissions, and boards.

The Firm is experienced in participating in cases involving public utility regulation, and other regulatory issues on administrative and judicial levels, including the presentation of direct testimony, representation at technical conferences, report and recommendations, preparation of written discovery and responses, assistance in developing cross examination of adverse witnesses, analysis of comments and exceptions filed to recommendations, and taking and defending depositions. The Firm is experienced in the presentation of recommendations involving public utility regulation, and other regulatory needs on administrative and judicial levels.

This is a rule-making docket initiated by an unopposed directive of Commissioner Skrmetta. The LPSC has General Orders that govern transfers of ownership and control of utilities and their assets as well as stock transfers and incurrence of debt in such situations. In the General Order of March 18, 1994, the Commission ruled that no regulated utility or common carrier can sell, transfer, merge, or otherwise change ownership and control where the values involved exceed 1% of the gross assets of the regulated utility or common carrier without Commission scrutiny and approval. The General Order of March 18, 1994, sets forth 18 factors that the Commission shall consider in reviewing such a proposed

change of ownership and control. The General Order of November 13, 1996, applies to regulated utilities. That order requires Commission approval of the issuance of securities in excess of 10% of the value of the utility's gross assets or \$1,000,000, whichever is lower, but exempts, *inter alia* and as material here, certain prior transactions and certain issuances of securities subject to SEC approval under the Utilities Holding Company Act of 1935. The General Order of November 13, 1996 also does not apply to securities issues exempt from Commission approval pursuant to Louisiana Revised Statute 45:1175.

The directive in this matter provides in pertinent part:

Recently, utilities have engaged or considered alternative methods of acquiring assets and financing that may not be specifically covered by these orders. Accordingly, I direct Staff to open a rulemaking to recommend modifications, if necessary, to these general orders.

We have reviewed the general orders pertaining to transfers of interest and financing. The Firm possesses a thorough understanding of the Commission's business and governing statutes and regulations. The Firm has a working knowledge of the Commission's ratemaking and jurisdictional issues, and applicable Commission and Federal regulations. As a result of the Firm's extensive business practice, Patrick Miller has considerable experience in cases involving accounting, taxation, depreciation, and other regulatory issues. We also have relevant experience in corporate finance and securities regulation as to publicly-traded and privately-held corporations and business entities.

.....

The Firm's attorneys have successfully litigated before the Commission; however, the Firm currently does not represent any private clients before the Commission. Neither the Firm nor its members are engaged in any representation that could result in a conflict of interest.

We have examined the "Overview" and all sections of the RFP, and have also reviewed the relevant orders of the Commission. We are confident that we can effectively handle all tasks required to assist Staff. The Firm has professional liability insurance providing coverage in the amount of \$2,000,000.00 per claim, as demonstrated by the attached Declarations Page.

PROPOSAL

Patrick Miller proposes to assist the Commission's Staff regarding this review and rulemaking docket. The Firm is familiar with the tasks associated with such a docket and indeed is currently assisting Staff in the "Historic Footprint" matter. We understand that the estimated period of representation in this matter is approximately twelve months. We have the resources and manpower to undertake this representation. While we will be flexible and adhere to the schedule set by the Commission and any changes thereto, we understand that we are to submit a proposed timeline/plan of action, and it is as follows:

1. Review initial documents and confer with Staff and other LPSC-retained professionals – two weeks.

2. Formulation of key issues and concerns in consultation with Staff and other LPSC-retained professionals – two weeks.

3. Assist in setting agenda for Technical Conference(s) and solicitation of comments, review comments and results of Technical Conference(s), draft reports and recommendations in concert with Staff and other LPSC-retained professionals, solicit additional comments and draft any proposed rules in concert with Staff and other LPSC-retained professionals, meet with Staff and LPSC-retained professionals, brief Commissioners as necessary, and meet and exchange documents and proposed rule(s) and revisions with interested parties and their representatives as necessary – four to five months.

4. Preparing in concert with Staff and other LPSC-retained professionals any final proposed rule(s), appearing as necessary at any hearing(s) and/or B&E(s) – two months.

BUDGET

Patrick Miller proposes to complete all actions for the scope of representation as set forth in the RFP within a total budget not to exceed:

\$48,500.00 in professional fees and **\$5,500.00** in out-of-pocket costs or expenses.

Statements for professional services and costs incurred will be rendered monthly and shall specifically identify and describe all work performed, the person performing such work, and the time and charge for such work. Legal services will

be billed strictly on the basis of the time actually spent by lawyers and legal assistants in handling this matter. The Firm's statements shall additionally show the total amount billed to date and the authorized original estimate. Bills will be rendered in strict accordance with the Commission's guidelines and expenses shall also be separately disclosed with the proof of such expenses attached.

The Firm anticipates that Patrick H. Patrick and Pierre V. Miller II will perform most of the work on this matter. These primary attorneys currently bill at rates of \$275.00 per hour. Additional attorneys who may work on this project are Laurence R. DeBuys IV who bills at \$275.00 per hour and Steve Mattesky who bill at \$225.00 per hour. Legal Assistants bill at a rate of \$100 per hour. The Firm will attempt at all times to staff this matter in the most efficient and economical manner.

**EXHIBIT "A": OVERVIEW OF APPEARANCES BEFORE THE
LOUISIANA PUBLIC SERVICE COMMISSION**

The following is a summary regarding our law firm's appearances before the Louisiana Public Service Commission:

In 1994, we represented Allvend, Inc., a Customer Owned Coin Operated Telephone ("COCOT") operator in "Louisiana Public Service Commission v. Paytel Enterprises, Inc. and USA Telecom, Inc." Docket No. U-20939. Allvend intervened against both Paytel Enterprises, Inc. ("Paytel") and USA Telecom, Inc. ("USA Telecom"), alleging defamation and anticompetitive acts. The Commission found Paytel and USA Telecom committed violations, imposed fines, required a security bond, and issued cease and desist orders against both defendants. Since then we have not represented a private party before the LPSC.

In 2010 we were awarded representation of Commission Staff in a fuel audit of CLECO. Our involvement was minimal given the resolution of all significant issues by Staff.

In 2016, we represented Staff in a fuel audit of Legacy EGSL, Docket No. U-32245. We were extensively involved in the matter, which concluded with a settlement under which ELL refunded \$5.044 million to LPSC-jurisdictional Legacy EGSL customers.

We assisted Staff in the "Dry Cask" matter, Docket No. U-34298, concerning FAC recovery of expenses incurred for dry storage of spent nuclear fuel ("SNF") and refunds to customers when the utility recovers from DOE for breach of DOE's obligation to dispose of SNF. A settlement was reached allowing inclusion of these costs and refunds in FAC filings with periodic reports and adjustment in the event material aspects change.

We are currently assisting Staff in Docket No. U-34332, *In re Review of Special Order 01-2001 to determine if it remains in the best interest of Louisiana Ratepayers*. This complex matter remains under consideration by Staff and consultants.

We are currently assisting Staff in Docket No. X-34696, *In re Review and/or facilitation of relocation of certain electric service lines located at the Slidell Municipal Airport in order to facilitate airport expansion*.

We are currently assisting Staff in Docket No. U-34860, *In re Rules applicable to electric service providers' provision of service to load outside its historical footprint and rates that may be offered for industrial load*. This rule-making docket primarily addresses issues that arise when a utility seeks to provide service to an industrial customer away from the utility's existing service area.

We are currently assisting Staff in Docket No. U-34951, *In re Entergy Louisiana, LLC's Formula Rate Plan Annual Evaluation Reports for Test Years Ending December 31, 2017, 2018, and 2019*.
