On motion of Chairman Greene, seconded by Commissioner Boissiere, with Vice Chairman Skrmetta and Commissioner Francis concurring, and Commissioner Campbell temporarily absent, the Commission voted to ratify Louisiana Public Service Commission interventions filed on October 14, 2021 without comment in FERC proceedings: ER22-74 AND ER22-75.

5) Directives

- Directive to Staff to evaluate Louisiana’s electric grid regarding status, maintenance, and whether there is more that could have been done and can be done to benefit Louisiana customers.

At the request of Chairman Greene.

Chairman Greene directed Staff to open a docket and take all necessary action, including but not limited to, the hiring of an independent engineering firm, to assess the status and maintenance of the electric grid serving Louisiana, as well as investigative whether certain storm costs could have been avoided with more preemptive maintenance of the grid throughout the state, and to provide recommendations to the Commission that would benefit Louisiana customers in reliability, decreased load pockets, and access to resources outside our load zone.

There was no opposition.

- Directive to Staff to assess Louisiana’s current electric utility infrastructure for resiliency and hardening for future storm events.

At the request of Chairman Greene.

Chairman Greene directed Staff to open a docket and use whatever means necessary, including but not limited to, the hiring of an independent engineering firm to assess the current electric utility infrastructure in Louisiana and propose a plan of resiliency and hardening that could better prepare Louisiana’s electric grid for future storms and interruptions. This docket should include creative proposals that will solve Louisiana’s specific infrastructure problems and allow Staff to explore all options from hardening to microgrids to solutions not yet known to the Commission.

There was no opposition.

U-35753 – Cleco Power and Southwestern Electric Power Company. **In re: Joint Application for (I) Authorization to Close the Oxbow Mine; and (II) Authorization to Include and Defer Certain Accelerated Mine Closing Costs in Fuel and Related Ratemaking Treatment.**

**In re: Directive to Staff, Cleco Power and SWEPCO regarding Docket Nos. U-35441 and U-35753.**

**At the request of Commissioner Campbell.**

Commissioner Campbell directed Staff to issue a notice expanding the scope of Docket U-35753, including publication in the Bulletin for intervention, to include a review of Cleco Power LLC’s and Southwestern Electric Power Company’s decision to retire Dolet Hills Power Station (“DHPS”) by December 31, 2021, including whether such decision was prudent. This directive is consistent with the terms of Order No. U-30975 dated April 30, 2009, and shall also include SWEPCO and CLECO making a prima facie joint application with supporting testimony in expanded Docket No. U-35753 on or before January 31, 2022 supporting their decisions to retire DHPS in 2021.
Additionally, Commissioner Campbell directed that the scope of Docket No. U-35753 include modifications to the ratemaking recovery of the DHPS costs being considered in Dockets U-35441 (SWEPCO) and considered and deferred by agreement in U-35299 (CLECO), as appropriate and necessary, to: a) reflect disallowances resulting from the Commission’s decision on the prudence of the decision to retire in 2021, if any; b) ensure that ratemaking recovery properly reflects on a going forward basis changes in the actual operating expenses and the actual net book value or regulatory asset and the remaining tax basis at retirement; c) consider ratemaking adjustments and/or mechanisms that would potentially reduce the effects on customers while ensuring recovery of prudent costs and d) ensure that the joint application filed by SWEPCO and CLECO adequately addresses these issues to be decided in the Docket U-35753 proceeding.

For clarity, the issues regarding modification of the level and timing of recovery regarding DHPS raised in Docket No. U-35441 are being deferred to the expanded Docket No. U-35753. In Docket No. U-35441, the level and timing of rate recovery for DHPS will maintain the status quo including using a rate base value at December 31, 2020 and present depreciation rates pending potential modification in Docket No. U-35753; however the issue of whether the status quo recovery is maintained through base rates or a retirement rider is preserved for litigation in Docket No. U-35441.

Such deferral of consideration of these issues is not a finding of prudence of the status quo level of recovery and it will be subject to review and potential modification, including refunds, in the expanded Docket No. U-35753. Additionally, it is recognized that upon retirement the depreciable asset may need to be converted to a regulatory asset for regulatory accounting purposes only.

There was no opposition.
